

GHGT-18

PERTH 25-29 OCT 2026
WESTERN AUSTRALIA

EXHIBITION PROSPECTUS

HOSTED BY

WELCOMING THE WORLD TO PERTH

Established in 1997, the Greenhouse Gas Control Technologies (GHGT) conference series is the premier international forum dedicated to greenhouse gas reduction technologies – with a focus on carbon capture, utilisation, and storage (CCUS). As such, the GHGT conference is the world leading conference on CCUS, and the last one, GHGT-17, set a new record attendance and hence was the largest gathering of CCUS professionals ever. GHGT-18, which will be held in Perth, Western Australia in 2026, will educate, inspire, and lay the foundation for international collaboration to accelerate commercial-scale development of CCUS technologies worldwide.

Australia is a global leader in CCS research, development and deployment, underpinned by over two decades of coordinated industry and government efforts and international collaboration. The country is home to two of the world's largest CCS projects operating – the Chevron Gorgon CCS Project in Western Australia and the Santos and Beach Energy Moomba CCS Project in South Australia.

Australia's CCS journey began in 1998 with the landmark GEODISC Project, which assessed the continent's carbon dioxide storage potential. That same year, Perth hosted the first Australian CCS conference – making it a fitting home for GHGT-18, 28 years later.

Perth is now a hub for CCS innovation, with major project developers and research facilities based in the region, as well as world-class CCS research facilities. In October 2026, GHGT-18 will welcome academic experts, industry leaders, government officials, business partners, and cleantech innovators from around the globe – all united by a common goal: advancing technology, innovation, and greenhouse gas (GHG) mitigation.

Co-hosted by an Australian consortium – Australian Energy Producers (AEP), CO2CRC, CSIRO and Geoscience Australia – GHGT-18 will take place at the iconic Crown Perth. This state-of-the-art venue offers an inspiring space for ideas, networking, and partnership-building, set against Perth's stunning riverside backdrop.

Through keynote speeches, panel discussions, plenary sessions, and thought-provoking technical oral and e-poster presentations, GHGT-18 will explore emerging and innovative technologies from idea to implementation, concept to commercialisation.

Join us in Perth – where innovation meets action. GHGT-18 will be a global catalyst for the next wave of CCUS development.

THE VENUE

ABOUT IEAGHG

The IEA Greenhouse Gas R&D Programme (IEAGHG) was formed in 1991 and is currently supported by its 37 members.

IEAGHG is one of the International Energy Agency's (IEA) Technology Collaboration Programmes (TCPs). The TCPs help accelerate energy technology innovation by ensuring stakeholders from both the public and private sector share knowledge, work collaboratively and, where appropriate, pool resources to deliver integrated and cost-effective solutions.

The Technology Collaboration Programme on Greenhouse Gas R&D (GHG TCP), also known as IEAGHG, constitutes an autonomous and independent framework within the International Energy Agency (IEA) network. The GHG TCP's task is to assess the role that technologies can play in reducing greenhouse gas emissions from both the power system and from industrial processes.

The Crown Perth Complex offers a world-class setting for GHGT-18, combining premium conference facilities, accommodation, and dining within one dynamic precinct. Overlooking the Swan River and close to the city centre, Crown Perth delivers an exceptional environment for connection, collaboration, and celebration – the perfect backdrop for sponsors to engage with a global audience and showcase their leadership in the low-carbon energy transition.

Held in the Crown Ballroom, the exhibition component for GHGT-18 will deliver a bustling floor of research specialists, key players and suppliers in the CCS sector. Modern facilities will ensure a first-class experience for both delegate and exhibitor.

The GHGT conference is the world-leading conference on CCUS. GHGT-17, set a new record attendance and was the largest gathering of CCUS professionals to date.

EXHIBIT AT GHGT-18

GHGT-18 will educate, inspire, and forge the foundation for international partnerships designed to accelerate the development of CCUS technologies on a commercial scale – globally.

GHGT-18 WILL BE THE BIGGEST ONE YET:

An estimated 1,000+ delegates

Over 350 oral presentations

500+ poster presentations

Keynotes and plenary addresses by world leaders in climate change, policy, and CCUS

Technical sessions covering seven streams

Panel discussions with international thought leaders

Networking opportunities with global colleagues

GHGT-18 will bring together the global CCUS community to learn, share, and build vital international relationships. This is an opportunity to have access to industry leaders and organisations committed to finding the solutions the world needs to hit net-zero targets as we transition to a low carbon future.

For more information please go to ghgt.info

SECURE YOUR SPOT

By exhibiting at GHGT-18, you will gain exposure to the world's foremost innovators, thinkers, and leaders in the cleantech space.

Being an exhibitor means:

- ✔ Your organisation will be associated with the world's premier CCUS conference.
- ✔ You will showcase your work to over 1,000 delegates including technology developers, decision makers, and leaders from the global CCUS community.
- ✔ You will gain international exposure and the opportunity to interact and build relationships with other stakeholders.

KEY DATES

BOOKING OPTIONS AND INCLUSIONS

ALL RATES QUOTED ARE GST EXCLUSIVE AND IN AUSTRALIAN DOLLARS

3m x 3m (9sqm)

\$9,500

Walls: Shell scheme stand with 2.4m high octanorm walls

Lighting: 2 x Energy efficient arm lights

Power: 1 x 4 amp GPO is included

Signage: Digital print fascia signage in set single colour

Flooring: Venue carpet

Furniture:

1 x Octanorm counter
2 x White stools
1 x Bin

Registrations:

2 x Complimentary exhibition registrations¹

6m x 3m (18sqm)

\$18,500

Walls: Shell Scheme stand with 2.4m high octanorm walls

Lighting: 4 x Energy efficient arm lights

Power: 2 x 4 amp GPO is included

Signage: Digital print fascia signage in set single colour

Flooring: Venue carpet

Furniture:

1 x Octanorm counter
2 x White stools
1 x Bin

Registrations:

4 x Complimentary exhibition registrations¹

Additional inclusions (with all booking options)

- ✓ Your detailed company profile including your company logo and company profile on the conference website
- ✓ Your company logo and direct contact links on the official GHGT-18 Conference App
- ✓ Your company name listed on the exhibition floorplan within the printed conference program included in each delegate bag
- ✓ Public liability insurance²

Options (with all booking options)

Custom printing and stand design is available and encouraged. Exhibition floor rates remain, as listed.

To discuss the range of options, please contact [GHGT-18 Exhibition Liaison](#).

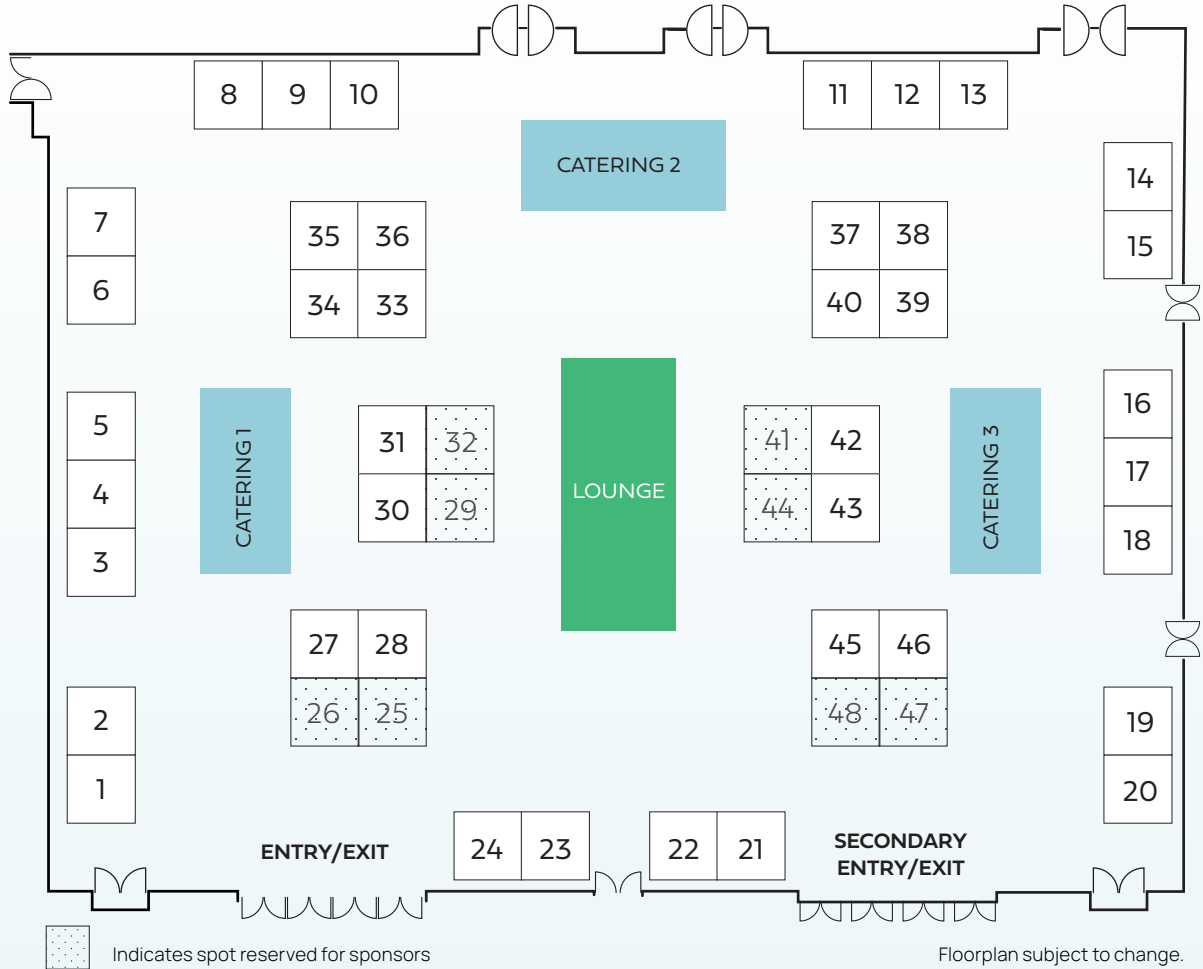

Notes

- 1 Exhibition registrations include:
 - Access to the exhibition including all catering breaks
 - Full access to the Conference App including a detailed program, abstracts, presenter biographies, and the ability to connect with your fellow delegates

This registration type does not provide access to sessions.

- 2 Public liability insurance is inclusive of all exhibition packages, if you wish to cancel this and utilise your own, please advise the [Exhibition Liaison](#).

EXHIBITION PLAN

Exhibition schedule

Sunday 25 October	3.00pm–8.00pm	General exhibitor access and bump in
Monday 26 October	7.00am–8.00am	Exhibitor access only
	8.00am–5.00pm	Exhibition open to all delegates
Tuesday 27 October	7.00am–8.00am	Exhibitor access only
	8.00am–5.00pm	Exhibition open to all delegates
Wednesday 28 October	7.00am–8.00am	Exhibitor access only
	8.00am–5.00pm	Exhibition open to all delegates
Thursday 29 October	7.00am–8.00am	Exhibitor access only
	8.00am–2.00pm	Exhibition open to all delegates
	2.30pm–10.00pm	Exhibitors bump out

Notes

Times subject to change.
Custom stands to liaise directly with the Exhibition Liaison.

HOW TO BOOK

- 1 Review the exhibition prospectus:** Carefully read through the prospectus, including rates and the [terms and conditions](#). Then, identify and note your top five preferred exhibition positions.
- 2 Submit your application:** Access the online booking platform and complete the exhibition application form.
- 3 Accept your offer:** Upon receiving the official offer by email, confirm your acceptance and complete any required documentation.
- 4 Complete payment:** Make payment in accordance with the [terms and conditions](#) schedule provided, ensuring timely submission to secure your selected exhibition position.

CREATE A STAND THAT SHOWCASES YOUR STORY

At GHGT-18, every exhibitor has the opportunity to stand out.

Whether you're a global company, research organisation, or emerging innovator, you can design your space to suit your goals – from simple floor and wall enhancements to a fully customised stand. This flexibility allows you to showcase your work, connect with delegates, and bring your brand or research to life before an international audience. A mix of stand styles will feature across the exhibition floor, ensuring a dynamic and engaging environment for all participants.
